Dear Sir,

Sub: Industrial visit Request for grant of permission to visit your esteemed organization

We introduce ourselves as **Shadan college of Engineering and technology**, which started functioning from the year 1995. We offer courses at the undergraduate level in six areas of engineering (Computer science & Engineering, Information Technology, Electrical communication engineering, Electrical Electronics Engineering, Mechanical engineering and Civil Engineering).

As part of educational tour to Industry, our students are very eager to visit various process areas in your plant.
All the students belong to 3rd year mechanical Engineering discipline. We request you to grant permission to visit your organization for a batch of 30 students along with faculty members. Kindly grant permission during the visit between 31st jan and 2nd feb 2019.

Thank you and looking forward for your favor.

INDUSTRIAL VISIT FEEDBACK

Company: IBM India Private Limited

Location: Madhapur, Hyderabad

Date: 6-Nov-2019

- The tour was successful only because of proper and timely co-ordination of **Dr. Md. Areeq Ur Rahman, Principal, Dr. Sridhar Gummalla(HOD), Dr. Md Sirajuddin, Dr. Raju Muntha, Dr. Waheeduddin Hussain, Mr. Aamir, And Mrs. Misbah Kausar.**
- The IBM employees were very humble with us all around the tour especially the Director of IBM, **Mr. Shahed Ali Afsar Sir.**
- We also had a visit to IBM's server labs, which was a breathtaking experience in itself. This was the first time I had physical access to any such thing.
- The lectures were on the following topics/technologies:
 - 1. INTERNAL WORKING & INFRASTRUCTURE OF IBM** by **Mr. Sadanandam Apanni**
He started the lecture by telling about IBM, its presence in India, its core operations etc. He also told the various academic programs and trainings offered by IBM.
 - 2. CLOUD & VIRTUALIZATION** by **Mr. Imran Uddin Kazi**
He worked at the core infrastructure team at IBM. He talked about various technologies like,
 - Cloud storage
 - Virtualization of network, server and storage
 - Open source cloud implementing technologies and how to contribute to them
 - Using HyperV, VMware etc.
 - He stressed the importance of KVM (Kernel-based virtual machine)
 - 3. DATA MINING & GOVERNANCE** by **Mr. Namit Khabra**
From the talks of his, he seemed to be a data mining expert. He told about how billions of gigs of data is generated every second and how important it is to extract useful data from this corpus. He had about 16 patents in his name. He told how,
 - He manages and uses huge data
 - The methods and techniques he uses to mine data
 - He blogs online on his personal website
 - 4. PATENTING IDEAS** by **Mr. Purnachandra**
He spoke about Patents and how they affect the industry. He also interacted with students about whether or not they has any idea that could potentially be converted into a patent. He told about how someone can have any number of patents by citing the example of IBMer Lily who had around 600 patents in her name. Some things he stressed on were,
 - Samsung vs Apple patent case
 - The legalities of illegally using someone's patented idea without crediting them
 - The royalties associated with patents
 - 5. CAREER DEVELOPMENT** by **Mr. Shaid Quadri**
At last we were lectured by Quadri Sir. He seemed to be very experienced in guiding students in their

In the future we are planning to implement the ideas in our college which were shared with us in this trip by the experts such as starting an open-source lab, getting national accreditation and recognition for our college , career guidance and placement training for our students, helping our students and encouraging them to have creative and innovative ideas and encourage them to start working on them and on a lot of more other things that we learned in our trip to IBM campus.

We are really looking forward to having more of such visits to your organization to build upon this industry-university relation so that we create intelligent, innovative, creative, enthusiastic, productive and hard-working engineers.
Our deepest gratitude and thanks to all!

SUB: THANK YOU NOTE

Respected Learned Friends and the Talented IBM Team,

We, the students and staff of Computer Science and Engineering Department, Shadan College of Engineering and Technology would like to thank you wholeheartedly for allowing us to visit your esteemed organization. The learning experience we had in IBM was immensely beneficial. Both the staff and students had very fruitful time and had a great deal of real time software exposure.

We extend our thanks to **Mr. Sadasandam Appani**, (Senior Manager, Power Systems Software Development-ISDL) for sparing his valuable time for us despite his extremely busy schedule to help our students learn and create awareness among them about IBM - UNIVERSITY RELATIONS and IBM ACADEMIA.

Special thanks to **Mr. Insanuddin Kazi**, (Chief Architect, Cognitive Systems - PowerVC, ISDL) and **Mr. Namit Kabra**, (Master Inventor, Information Server, ISL) for enlightening our students with insightful lectures and discussions on Cloud Computing and Data Governance, helping our students in getting vast exposure to these important topics, in his extremely useful sessions.

Mr. Ramesh B Chinnam, (System Admin, Power Systems Software Development - ISDL) and **Mr. Chand Pasha**, (System Admin) and **Mr. Venkateshwar R Yerravalli** & **Mr. Vamshi K Thatikonda**, (Power Systems Software Development-ISDL), and we had **Mr. Venkateswarlu Yellala** for creativity along with **Mr. Madan** and **Mr. Prashant** to complementing the interaction who helped our students during the Lab Tours of the Data Centers of IBM and explained to them the issues involved in a thorough yet very simple manner of the functionalities and working process of various servers, tools, cables, and equipment, they all deserve special mention and praise. They were very kind and helpful to our staff and students. We are really indebted to all of them.

We are really thankful to **Mr. Sanket Rathi**, (STSM, Power Systems Software Development-ISDL) and **Mr.Chenna Boddapati** (Manager, Power Systems Software Development-ISDL) for introducing IBM to our students and developing their interest in power journey, respectively. During these lectures our students had query sessions where they asked a lot of questions and this helped them clear a lot of their doubts.

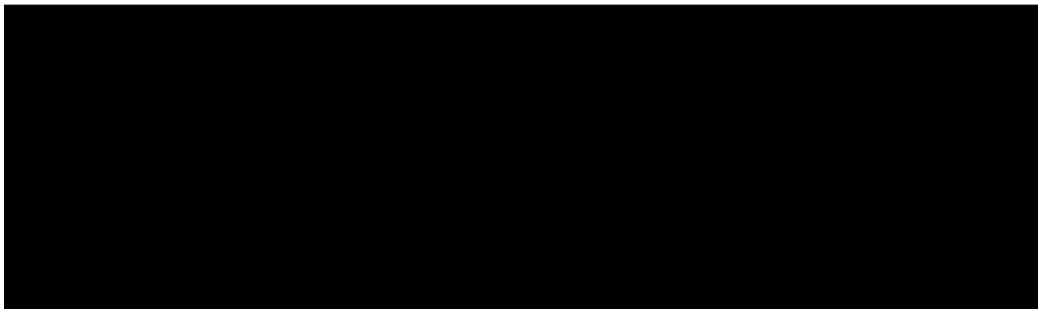

Mr.Purnachandra Rao Jast, (Device Driver Team, Power Systems Software Development-ISDL) and **Mr.Zubair A Mohammed**, (SoftLayer/Infrastructure Architect, GTS) helped our students to be more creative and be brave in chasing their dreams and ambitions and overcome their fears and apprehensions. We are extremely grateful to them for their efforts for our students.

Mr. Shahid A Khadri, (SAP Basis/ NetWeaver Architect, GBS) in the concluding session of this wonderful trip full of learning and academic benefits for our students, helped them leave the campus of world's top-most MNCs -IBM with lasting impressions of how great this organization is in helping the world and encouraging especially the engineering aspirants/students to be creative, innovative and more productive in their future and build empowering careers of their own.

Lastly, we would like to give special thanks and appreciation to **Mr. Syed Shahid Ali Afser**, (Tech Lead, RSCT, Power Systems Software Development-ISDL) towards whom we are indebted because of his selfless and sincere efforts and hard work for helping us visit the campus and for conducting interactive sessions with the industry's highly experienced experts and helping us tour the data center labs of IBM under the guidance of technical experts. We are really grateful to you for all your help and effort. In Your session where you asked our students to think and write about an article that has been published after 50 years about them was indeed tremendously beneficial for our students for them to have proper insight into their future and career.

We are glad to inform you that some of our students from C.S.E and I.T. final year have already started working on their own innovative and creative ideas and we are helping them implement their ideas to transform their dreams into realities.

We are also encouraging our students for entrepreneurship and for incepting their own start-ups as one of the sessions in our visit to your organization had emphasized and gave confidence for our students to work upon their own ideas and run their own setups.

Respected Sir/Madam,

For the proper knowledge and understanding of industries and their working and to get a proper view of the functioning of different equipments for the students, we are interested in an industrial visit to Patigadda substation.

So, I request you to kindly allow the students belonging to Department of Electrical and Electronics Engineering of Shadan College of Engineering and Technology for the industrial visit.

All the students will follow the rules and regulations of your substation. The list of the students is enclosed with this letter.

Thanking you,

SCET-Incubation Centre

SCET, one of the most forwarding thinking and innovative educational institutions, is proud to start an incubation centre to enable its students get first-hand experience in entrepreneurship, promote innovation driven activities at the institute and provide comprehensive and integrated range of support including space, mentoring, training programs, networking and an array of other benefits.

Just as one cannot imagine a college today without a library or a place for physical activity, we believe that an incubation centre is equally essential in today's competitive and fast changing world. Through the incubation centre, students gain hands-on experience in innovation and entrepreneurship while being nurtured and encouraged by faculty, management and industry experts.

The SCET-Incubation Centre aims to be the hub of innovative and high impact ventures in social, educational, commercial and other domains. It hopes to bring forth a revolution in how and what students learn and achieve while in college.

Operating Model

The SCET Incubation centre at an operational level is responsible for nurturing innovative ideas by handholding the founders through the business proposal stage, identifying the target market, creating a minimum viable product/ service, technological guidance, industry exposure, pre-launch activities, consumer feedback and exposure to the investor community.

Eligibility

The SCET Incubation Centre seeks to support all members of the SCET ecosystem to translate innovation into products, processes and services that are commercially viable.

Admission to the Incubation centre is open to:

- 1) Faculty and Staff (Current) including Adjunct faculty
- 2) Students (Current and Alumni <2 years)

The scope of support is envisaged to be broad-based and covers technologies/ IP developed wholly at the institute or partly through collaborations elsewhere. The SCET Incubation Centre will also be open to considering proposals with strong social and strategic impact.

Incubation Process and Support Available

Selection Process:

- a) Submit an application form.
- b) Screening by SCETIC Committee (Proposals are examined with attention to financial, technical and social impact parameters)
- c) Final approval by Incubation committee
- d) Agreement executed to formally commence incubation at SCETIC
- e) Incubation support is normally offered for 1 year

Post Incubation Period:

Participants may be offered shared space at SCETIC on a case-by-case basis. SCETIC will also actively support participants with a combination of inputs including

- 1) **BRANDING:** Participants may apply for permission to brand themselves as " SCET incubated company".
- 2) **MENTORING:** Academic Mentors
Industry Mentors
- 3) **NETWORKING:** Engage with participants as well as Alumni network to leverage collective knowledge
- 4) **TRAINING**

Vision: Social transformation through technological innovation

Mission: Nurture and mentor aspiring entrepreneurs transform their innovative ideas into viable entrepreneurial initiatives through excellence and service.

Santha

The Digital Mandi

Logo:

The Digital Mandi

- Santha is the Telugu language word which means ‘Market’.
- Santha Application aims to eliminate mediators between farmers and consumers.
- Mohammed Taha Hussain Jamal(17-5A3), Shahzeb Mehdi(17-5D5) and Syed Zaki Ahmed(17-5G1) has taken the Digital India initiative and developed an application which provides a platform from which a farmer can sell his/her product to consumers without any mediator.
- In this application, traditional add to cart option is eliminated with the alternative of providing direct phone number of the seller so that both seller and the consumer can interact straight and decide the deal as well as transportation.
- With this application farmer can able to set his/her own price for the product.

- This application tends to be a platform for the farmers and consumers to practice their chores. Application doesn't charge anything from both consumers as well as farmers.
- Government of India is trying to develop such a platform under CSC(Common Service Centres) with almost same features what we've implemented.

Link: <https://www.vlesociety.com/csc-kisan-e-mart/>

- Thus we want to state that we've also taken the initiative and developed the application for the welfare of the society.
- But we're not able to publish our application on the play store because of the new Farmer Protection Act-2020:

CHAPTER II

PROMOTION AND FACILITATION OF TRADE AND COMMERCE OF FARMERS' PRODUCE

5. (1) Any person (other than individual), having a permanent account number allotted under the Income-tax Act, 1961 or such other document as may be notified by the Central Government or any farmer producer organisation or agricultural co-operative society may establish and operate an electronic trading and transaction platform for facilitating inter-State or intra-State trade and commerce of scheduled farmers' produce in a trade area:

Provided that the person establishing and operating an electronic trading and transaction platform shall prepare and implement the guidelines for fair trade practices such as mode of trading, fees, technical parameters including interoperability with other platforms, logistics arrangements, quality assessment, timely payment, dissemination of guidelines in local language of the place of operation of the platform and such other matters.

- But we've developed the prototype application, we're ready to present it but without any further permissions from the government, we're neither promoting nor publishing it on the google play store.

Link to view (download) our prototype-not for the real time use:

Features of the Application:

- First screen of the application simply displays two buttons
 1. Buy
 2. Sell

- Buy is for consumers, where without any steps a consumer can explore the market and interact with the seller.
- A consumer can get the details about the seller and his/her product from the above five lines of the any product details.
